PROCEDURES ON PIATTAFORMA
INTEGRATA CONCORSI ATENEI – PICA
(Integrated platform for university competitions – PICA)

To fill out an application, the user accesses the PICA platform via the address that the university provides for direct access to the application compilation page, for instance: https://pica.cineca.it/ente/tipologia/xxx and once he reaches the page he has to click on the button **Gestisci le domande/Manage Your Applications**.

Pica allows access to content only after registration and user authentication. If the user accesses PICA for the first time, then he must register and enter all the requested data in the form. After registration, PICA requires the user to authenticate.

The methods of authentication on PICA are:

- 1. Login via account PICA, LOGINMIUR, REPRISE o REFEREES
- 2. Login via SPID (only for federated institutions)
- 3. Login via SSO (only for configured institutions)

Logging via *Login via SPID or INSTITUTIONAL CREDENTIALS*, the page containing all the FEDERATED INSTITUTIONS will be shown.

The user selects the <u>reference institution</u> and is redirected to the relevant credentials entry page. Once logged in, the user is redirected to the PICA page of the university where he can start filling in his application by going to **Compila una nuova domanda/New submission**.

The application form is divided into pages and sections. Fill in every single page in all its sections.

After completing a page press the Salva e Prosegui/Save and Proceed button at the bottom of the page.

If the entry was successful, the system passes to the next page; otherwise error messages/warnings will appear and the user will have to correct the data already entered or insert the missing data. To view the contents of the pages only, click on **Successiva/Next** (top right).

Some personal information in Personal Data and contact details will already be pre-filled. If there are errors in the personal data entered during registration, the user can modify them by accessing the "User profile" at the top right.

It is important to fill in all the mandatory fields:

Otherwise warnings will be present:

Once you reach the last page of the announcement, click on **Salva e torna al cruscotto/Save and back to dashboard**

Once all the pages/sections have been completed, the candidate will see the application to be presented on the dashboard, with the status "in bozza / draft". Applications in "in bozza / draft" status can be modified and verified through the special keys.
