

Future-proofing Higher Education -

Adapting and Updating HEIs to Ongoing Technological and Societal Changes and Advancements

Dear Erasmus+ partners,

Please mark the date **May 27- 31, 2024** in your calendar and join us for the **6th International Staff Week** at the University of Kragujevac, Serbia. ([Promo Video](#))

Let's get together to explore the central topic: **Future-proofing higher education - adapting and updating HEIs to ongoing technological and societal changes and advancements.**

During the course of the event, we will:

- Identify the potential challenges for HEIs in the upcoming years and methods of minimizing the effects,
- Explore future proofing students - enabling them to find their place in increasingly complex workplaces,
- Discuss Artificial Intelligence (AI) revolution and its current and future impact on education,
- Reflect on Erasmus+ driving the education of future – blended intensive programs, digital transformation, environmental action and social engagement
- Future proofing the mind - acquaint yourself better with the inter-personal and inter-generational communicative gaps in education by interacting with professionals from the field of psychology and business counseling,
- Visit Serbian historical and cultural landmarks,
- Enjoy Serbian cuisine,
- Expand your connections and meet new colleagues from around the globe.

Applications are open until **May 10th, 2024**.

- You may apply via the following [LINK](#).

- Acquaint yourself with Serbia and the city of Kragujevac before your arrival through our [INFO SHEET](#).

Participation fee for all participants: **80 EUR** (for the meals and excursion).

If you have further questions or inquiries, please contact the International Relations Office at:
